Sample Disclaimer

Wood is a natural product. All samples are produced to be the closest representation of the actual finished product. The finished flooring may contain a larger **variation of color, grain, sap content, grading, knots** and distress that may not be evident in the small sample you are viewing. Samples that are aged or have been exposed to direct sunlight may appear differently, (darker or yellowed), than the flooring it is meant to represent. Due to the varying hardnesses of wood flooring species, you must be aware that flooring may dent & scratch if you do not provide proper care and maintenance during installation and thereafter.

Character Grade

Character Grade hardwood flooring is perfect for homeowners looking for a unique alternative to very clean looking traditional floors. Character or rustic grade hardwood will include mineral streaks, large to medium sized knots, checks, worm holes, as well as select and clear grade lumber. These floors are all first quality with simply a rustic visual. This grade is truly the most representative of the beauty of wood in its most natural state.

Important Information About The Monaco Collection

Please note that the lighter colors of the Monaco Collection will show more variation of color, grain, sap content, grading, and knots simply because there is no dark stain to hide these natural characteristics. This is part of the beauty of this wonderful natural product and is not considered a defect.

Maintenance

Appropriate maintenance products and instructions for Monaco oil finished floors are available from your floor covering retailer.

LEED Eligible

This Series can potentially contribute to LEED points under the following credits:
EQ Credit 4.2 – Low-Emitting Materials – Paints and Coatings (No VOC finish) 1 Point
EQ Credit 4.4 – Low-Emitting Materials – Composite Wood and Laminate.
(No added formaldehyde) 1 Point
