## Benefits of HDF Core vs. Plywood Core:

- Resists moisture
- Click systems lock tighter
- Premium click and laminate products have HDF cores
- Greater dimensional stability
- Lays Flatter (no warping)

Wood is a natural product cut from a tree. The installed floor will have some visual differences from what is represented in the sample. These unique visual qualities in each installation are desirable and are part of the beauty of a natural wood floor.

Edge Style:	Micro-Bevel
Installation Type:	Glue or Float
Application:	On, Above, or Below Grade
Warranty:	Lifetime Structural 25 Years- Finish
Origin:	Made in the USA- Lacey Compliant

### Sample Disclaimer

Wood is a natural product. All samples are produced to be the closest representation of the actual finished product. The finished flooring may contain a larger **variation of color, grain, sap content, grading, knots** and distress that may not be evident in the small sample you are viewing. Samples that are aged or have been exposed to direct sunlight may appear differently, (darker or yellowed), than the flooring it is meant to represent. Due to the varying hardnesses of wood flooring species, you must be aware that flooring may dent & scratch if you do not provide proper care and maintenance during installation and thereafter.

### Important Information Regarding The Color "Natural"

This product line contains the color "Natural", meaning that wood has no stain. As a result, characteristics such as mineral streaks, sap, knots, and checks will be more prominent in the visual than with a stained wood color. These unique visual qualities are desirable and are part of the beauty of a natural wood floor.
